Kraków

Certified software tester (ISTQB CTFL) with 7 years of experience in Quality Assurance (QA). I specialise in manual and end-to-end (E2E) testing of web applications. My strongest area: sports betting in online casinos, payments and KYC. I manage defects in Jira, coordinate releases (release management) and work closely with the client and the PM.

Languages: Polish: native, English: B2.

WORK EXPERIENCE

NOVOMATIC Technologies Poland — 07.2021 - 10.2026

Quality Assurance Engineer

- Specialisation: sports betting in online casinos (sportsbook), functional and regression testing of bets and their settlements
- Main project: Casino Online, comprehensive quality assurance of an online entertainment platform (web / mobile)
- Player lifecycle testing, from registration and identity verification (KYC) to profile management
- Verification of payment gateway integrations and payment methods, deposits and withdrawals
- Functional and regression testing of slot games, with a focus on settlement accuracy and player balance
- Independent manual testing (functional, regression, integration) of key web and mobile (iOS/Android) application modules
- Designing and maintaining test documentation: scenarios and test cases
- Monitoring and analysing logs in Grafana and Rollbar, shortening defect diagnosis time and improving communication with developers
- SQL queries verifying business operations on PostgreSQL and preparing test data
- Release management on the QA side, mentoring of junior team members
- Regular cooperation with the client, business meetings with the PM, presenting solutions to the client
- Active participation in creating and analysing business requirements

Sii Poland — 10.2019 - 07.2021

Junior Test and Analysis Engineer

- Main project: Business Online ABB, testing a global enterprise-class B2B e-commerce platform for the ABB group
- Manual testing of e-commerce platforms (functional, usability), defect reporting and defect lifecycle management
- Verification of business documentation and preparation of test scenarios based on it
- "IA Extended" mini-project: independent ownership of an additional requirements area in a separate environment for one of the companies using the platform
- Full responsibility for test scenarios, defect reporting, retests and regression testing
- Support for business analysts during the final presentation to the client

EDUCATION

University of National Education Commission in Kraków
10.2015 - 09.2017 | Master's degree, internal security

Rzeszów University of Technology
10.2012 - 07.2015 | Bachelor's degree, internal security
